

K-love radio is very important to those of us who live in slc because there is no local station with a contemporary christian format. i go to a local bible study and many of the ladies listen to the station and are blessed in many ways by the music and comments. if the signal were to change formats many people here in slc would be unhappy. k-love serves the public interest as a non-commercial station in a way that no other station in this market does. it would be a huge loss to me personally and to many, many others in this market if k-love goes away. please, please don't do it! we really need k-love here in salt lake city!!!
